ORGANIC ROLLED OATS
(all flaked products)

Description: Cleaned, hulled, whole or cut oat groats rolled into uniform, thin, oat flakes rolled to customer specifications. Organic Certification is maintained by La Crosse Milling Co. Organic product is handled in accordance with procedures set forth by the USDA and Oregon Tilth Certified Organic.

TYPICAL ANALYSIS (provided on Certificate of Analysis)

| | <u>TEST METHOD</u> | <u>MINIMUM</u> | <u>MAXIMUM</u> |
|--|---|---|---|
| ENZYME ACTIVITY: | <i>(AACC 22-80)</i> | NEGATIVE | LOW |
| MOISTURE: | <i>(NIR and/or AACC 44-19)</i> | 8.0% | 12.5% |
| DENSITY: | <i>(LMC95-03, method 2)</i> | Report Results or Customer specified | Report Results or Customer specified |
| FLAKE THICKNESS: | <i>(LMC 95-02)</i> | Report Results or Customer specified | Report Results or Customer specified |
| WATER ABSORPTION: | <i>(AACC 88-10)</i> | Report Results or Customer specified | Report Results or Customer specified |
| FOREIGN MATERIAL HULLS: | <i>(VISUAL) PER 50g</i> | Report Results or Customer specified | Report Results or Customer specified |
| GRANULATION (particle size) Specify screens | <i>(100g.sample, 2min,RO-TAP, W/HAMMER)</i> | Report Results or Customer specified | Report Results or Customer specified |

Products are typically rolled to customer-defined specifications. The above attributes can be reported on a Certificate of Analysis, as requested. Without customer specifications, standard product specifications will be targeted.

Adjustments may be made due to inbound material (groats) characteristics.
