Sulphur dioxide & Sulfites (at levels above 10mg/kg)		X

+ these products may be found in vending machines in the employee break rooms.

\*1) Precautionary measure as trace amounts are unavoidable in field grains; Receiving control procedures limit acceptable quantities of wheat contamination in oat grains.

\*2) Wheat flakes are produced within facility and on shared equipment; whereby documented allergen control procedures are utilized.

\*3) Wheat gluten is gliadin protein; Oat gluten is avenin protein (some studies have shown that celiac disease-food sensitivity may not occur in oats). Barley gluten is hordein protein.

Allergen Control Program consists of documented procedures to control allergen contamination within this facility.

Change-over logs are utilized to monitor effectiveness. Color coded packaging is utilized.

This product contains no other ingredients, additives, dyes or fillers.
